

Growing Jobs in Utah

UTAH 2020 ECONOMIC IMPACT

District 3: John Curtis

The Utah Industry Resource Alliance is dedicated solely to the success of Utah businesses in the manufacturing sector and all other businesses in rural Utah. State-wide Economic Growth is the primary focus of the collaboration.

The Alliance provides outreach, value-added training, education, workforce development, certifications, and needs-driven services to Utah Manufacturers & rural Utah businesses. Our collaboration is aligned with Utah's Economic Development Strategy to produce results based on our joint records of proven performance and successful outcomes.

(801) 845-4889

"This was the best training I have experienced. After several months, our teams continue to refer to and rely on the concepts that were learned in this team building experience."

- Bryan Crowell, COO

Case Study: Pit Crew Challenge

Problem: Seeking effective team building exercise to teach teams how to work more effectively together.

Solution: Building High Performance Teams, Pit Crew Challenge. Trained 600 employees in groups of 24 over several weeks.
