

SUPPLY CHAIN OPTIMIZATION

CONNEX™ UTAH allows manufacturers to strengthen supply chains. Find alternate suppliers, view your supply chain visually, highlight risks within your supply chain looking at single supplier risk, financial risk, government blacklists, and other vulnerabilities, as well as finding Utah suppliers by searching the thousands of state manufacturers and filtering the results to match your needs.

DEVELOP NEW PARTNERSHIPS

If you are looking to grow your business, including looking for new capabilities, services, or if you are trying to develop new products and need new partners, CONNEX™ UTAH allows you to search for relevant companies—both in Utah and nationally—that will meet your needs.

BUSINESS RECOVERY & RESILIENCE

Access to CONNEX™ UTAH will allow you to respond quickly when a disaster strikes by giving you immediate access to new suppliers or supply chain partners. Plus, the platform is designed to be interoperable with the CONNEX™ Marketplace that was developed by the National Association of Manufacturers as well as the COVID-19 Response Tool that was developed by NAM.

BUSINESS DEVELOPMENT TOOL

CONNEX™ UTAH has the capability to highlight all of your assets and relevant certifications, capabilities, and other relevant industry information to help other manufacturers find you to integrate into their supply chain. The platform allows you to view RFPs, RFQs, RFIs, requests for surplus materials or equipment, and other needs posted by other members of the database.
